## Skills

### UX Design

UX research, wireframing, user interviews, userflows, user journey maps, workshop facilitation, UX strategy, design sprints, user testing.

### UI Design

Design systems, branding, accessibility, illustration, iconography, Sketch, Figma, Protopie, Illustrator, Photoshop, Zeplin, Invision, dev handover, iOS patterns, Android patterns, Material Designs, Human interface Guidelines.

### Interaction Design

Prototyping with Protopie, Figma, Invision, front end code, producing pixel perfect microinteractions to enhance user experience

### Front-end knowledge

I have a fundamental understanding of HTML, CSS, JavaScript. This allows me to design to technically realistic outcomes and collaborate with developers better.
